Color, Coat, Sex:

Date of Birth: AKC Litter #:

Sire: Dam:

Shots: Dewormed:

1. Breeder guarantees that the above dog is an AKC registered dachshund with AKC registered parents.
2. Breeder guarantees that this dog is in good health at the time of purchase and that the puppy has been dewormed and vaccinated in accordance to its age.
3. Breeder cannot guarantee adult size, temperament, or color of dog.
4. Buyer agrees to maintain the dog, at all times, in good health with at least annual check-ups and recommended immunizations at buyer's expense.
5. Buyer shall have the dog examined by a licensed vet within one week of purchase to validate this health guarantee and to follow up on all necessary booster immunizations. If, after this vet exam, the puppy is determined to be in poor health, the puppy may be returned to the Breeder with a written report from the veterinarian. The Breeder will replace the puppy with another puppy as soon as one is available of the same sex and value. There are no cash refunds, only replacements. The Breeder is not responsible for any vet fees incurred.
6. Buyer shall pay a \$200 deposit to hold the puppy of your choice which is non-refundable unless the health of the puppy becomes in question while in the Breeder's care. The Breeder will have the pup checked by a vet close to 6 weeks of age. If, after this initial check by the vet, a health defect or other health issue arises, then the Breeder will notify the Buyer, tell you what the situation is and give you the choice to continue with the sale or get your deposit back. Once the dog is in your care and the balance has been paid, there are no refunds.
7. Buyer agrees that if at any time the Buyer cannot properly care for the dog, the Buyer should return the dog to the Breeder at the Buyer's expense.
